

My Genius Central User Guide

How to Scan for Store Inventory

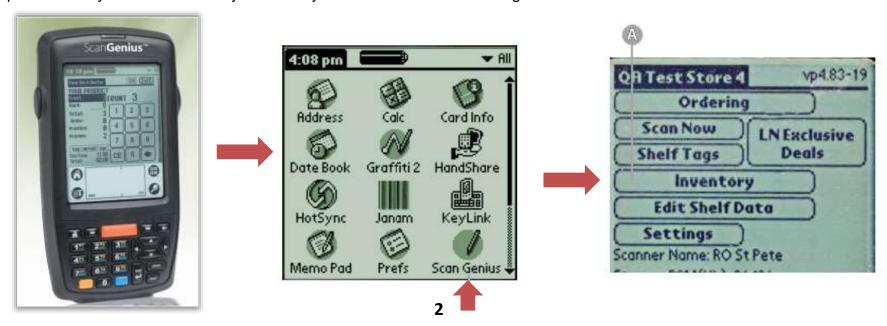

Overview

Welcome to **My Genius Central**, a cloud-based password-protected website designed to provide retailers with the ability to manage their product orders in one central online location. This portion of the user guide will explain how to **scan for inventory** with your scanner, hot sync it to your **SMC 4.0** desktop app and finally send to your **MyGeniusCentral.com** account for printing. Note that we recommend using **Google Chrome** as your browser.

My Genius Central – How to Scan for Store Inventory

Step 1:

On your scanner home page, press the **Scan Genius button** then the **Inventory button (A)** on your screen and scan the products that you want to inventory. Note that you do not need to load catalogs to do this.

Step 2:

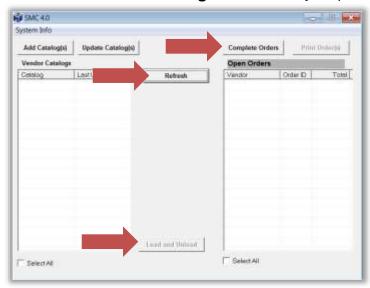

Place your scanner in its recharger cradle and **Hot Sync** with your PC, sending scanned inventory data to your **SMC 4.0** desktop ordering application.

Step 3:

On your **SMC 4.0** app, **click Load and Unload** to load your inventory data to your **MyGeniusCentral.com** account. If the **Load and Unload** button is not highlighted in black for use, click the **Refresh** Button to refresh it, then press **Load and Unload**, sending your shelf tag data to your **MyGeniusCentral.com** account.

Step 4:

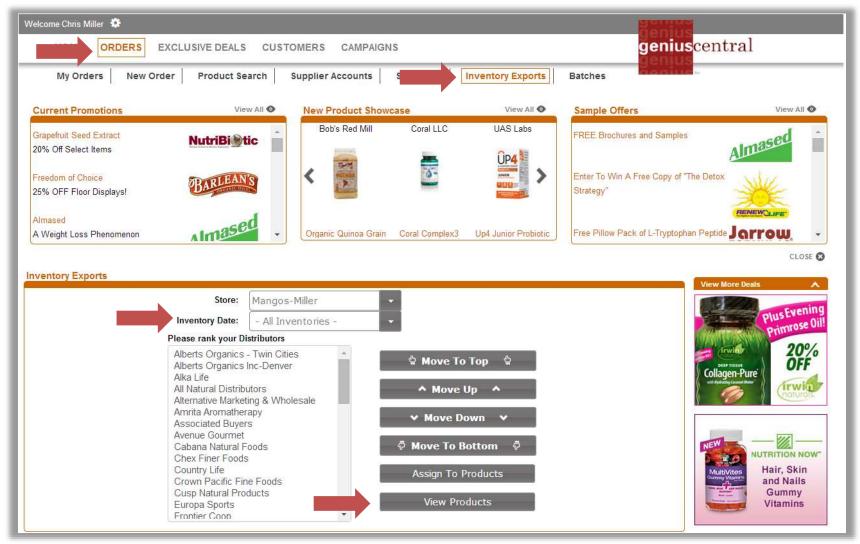

Go to your **MyGeniusCentral.com** account by pressing the **Complete Order** button in your SMC 4.0 app or just open your online account in any browser. Note that we recommend **Google Chrome** as your primary browser.

Step 5:

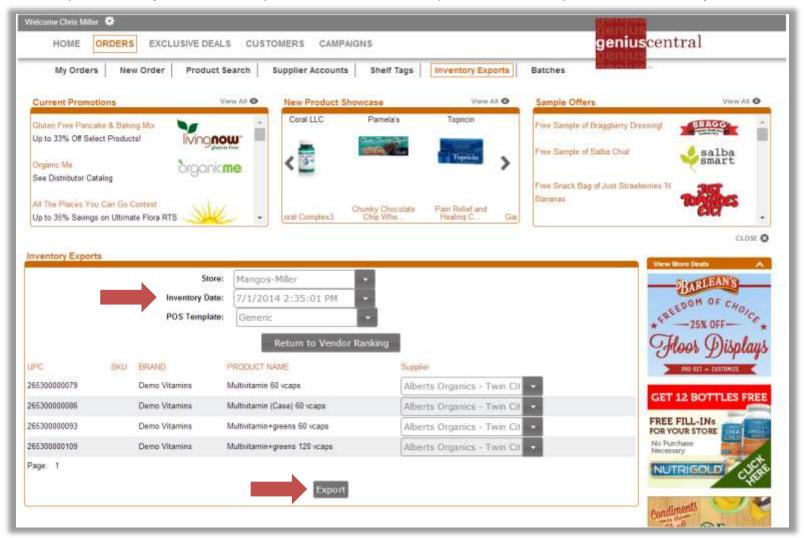

In your **MyGeniusCentral.com** account, click on the menu item **Orders**, then **Inventory Exports** and select your inventory scan date in the **Inventory Date** drop down window. You can then view your inventory list in **View Products**.

Step 6:

- Inventory items are now listed in order of how they were scanned from the most recent at the bottom.
- You can press the **Export** button to export them as a txt file to import into an excel spreadsheet or POS system.

For Further Assistance

For further assistance with any aspect of your scanner, **SCM 4.0** desktop application or **MyGeniusCentral.com** account, please contact support at **800-360-2231** or by email at customerservice@livingnaturally.com
